## THE ELKS' CARNIVAL-BAZAAR

The biggest army of workers ever mustered will occupy the arena here for the next few days and nights, getting things in readiness for the big annual Elks' carnival-bazaar, which opens with the usual bang on Thursday night of next week. The three-day season of fun and frolic promises to surpass in interest any previous effort. Already, it looks as though it is impossible to confine active interest in this great enterprise to the organization of Elks, for volunteers galore from outside the ranks are offering their services, to help carry the affair to a success.

Buy your tickets early and often; be on hand with your coin to keep humming the house-ho and other entertaining features, and be sure to take a bang of some sort at the big specimens of the wilds in such entertaining clowns as Bill McPhail, Bill Chappell, Bill Harper, Bill Boyle, Bill Harrison, Bill Dunlop and the eighty-seven other bills.

Really, there will be nothing else doing for the three days, and justification in abundance is in store for everybody.

## DEATH OF GORDON GILCHRIST

Another old-time and highly respected landmark of the Crows' Nest Pass has passed on, in the person of Gordon Gilchrist, aged 77, who died in St. Vincent's hospital, Pincher Creek, on Monday, following a very brief illness.

Mr. Gilchrist had been a resident of the district since the earliest pioneer days, spending the greater part of his time on a homestead near Burns. He was believed to have amassed a considerable fortune, being largely interested in valuable investments in Calgary and other western Canada points.

The remains were laid to rest at Pincher Creek yesterday afternoon, the funeral being attended by quite a number of old-timers and friends from this district.

We understand he is survived by two sisters and one brother, living in Ontario.

## "CAUGHT SHORT" KNOCKOUT COMEDY HIT, AT BELLEVUE

If you won or if you lost on the last "bull market" in Wall Street, you will find laughs in a very timely comedy which opens at Cole's theatre, Bellevue, tonight for a three-day run. It is a Metro-Goldwyn-Mayer picture, "Caught Short," and it co-stars Marie Dressler and Polly Moran, under the direction of Chuck Reisner, the director of "Hollywood Revue of 1929."

"Caught Short" is, to express it very simply, the short and very amusing adventures of a pair of boarding-house landladies in the finger-burning business of buying and selling stocks on margin. What the adept Marie and the uproarious Polly can do with such a situation can be imagined by the friends of this famous pair of comedienne. The love interest of the story is capably furnished by Anita Page and Charles Morton, typical "boarders" are furnished by T. Roy Barnes, Herbert Prior and Edward Dillen. Nancy Price is Polly's younger daughter.

Local parties last week received picture post cards from Charlie Sartoris, who is now touring Europe by auto. The cards picture ladies and gentlemen in action in France and Italy.

The Stettler Elks' band won first place at the Calgary Stampede competitions. The Bellevue West Canadian band attained fourth place, according to the adjudicator.

Down in Ladner, B.C., recently, a farmer was fined under the Lord's Day Act for digging potatoes on Sunday.

## ONLY TWO NOMINATIONS

MacLeod, July 14.—Nominations were handed to Returning Officer Frank Holmes for the Federal riding of Macleod on Monday, July 14th, as follows:

George Gibson Coote, farmer, Nanton. Nominated by H. G. Loree, J. D. Sears, R. D. McPherson, P. Larsin, F. N. Collins, Marlin Sears, L. Pearl Waggoner, O. C. Armstrong, Mary Comstock, Cora McPherson and others. Hugh F. Spencer, Parkland, official agent.

Joseph Duncan Matheson, barrister, Macleod. Nominated by N. S. Law, D. J. Grier, Loretta Wall, G. H. Scougall, Josiah Orr, R. D. McNay, J. Wesley Shields, H. G. Winter, J. F. Canning, W. F. Currie and others. J. Wesley Shields, Macleod, official agent.

## COWLEY HAPPENINGS

Mr. James Leigh is a present visitor to Calgary.

Harry Rogers, of Lundbreck, was a Cowley visitor this week.

Mrs. Jack Graham has returned from a visit to Calgary.

Mr. and Mrs. C. J. Bundy have returned from a trip to Toronto.

Mr. and Mrs. Blanchard, of Burnaby, were Wednesday visitors to Cowley.

Two inches of rain is reported to have fallen in parts of the Heath district on Friday night.

Mr. G. G. Coote, farmer candidate for this constituency, held a meeting in Tustian's hall on Friday night. Rev. Mr. Crisp will attend the Boy Scouts' camp at Lethbridge this week in July.

Miss Bridget Burn, of Lundbreck, has gone to Calgary to visit her mother, and to see her newly-arrived infant sister.

In spite of continuous dry weather here, crops are holding their own in most instances, and especially on the summer fallow, which is looking well.

Word has been received from Calgary, saying that a second son is born to Mr. and Mrs. Sandeman. The proud parents are receiving congratulations on this advent.

Mr. E. Cowin, who is employed with the Alberta Pacific Elevator Co., left on Monday by motor for Calgary, where he will spend a two weeks' holiday.

Mr. Black, who is employed with the Pool Elevator Co., left by motor in company with his wife and family for a two weeks' holiday in various parts of Montana.

James Gerry, Mrs. Doyle and two children, Tony and Peggy, accompanied by Mrs. Leigh and daughter Verdu, left on Sunday by motor for Vancouver, where they will spend a few weeks holidaying.

Word has been received from Missouri, telling of the birth of a son to Mr. and Mrs. Kenneth Berry, who moved there from this district last fall. Mrs. Berry will be remembered as Miss Gussie Edwards, of North Fork.

The Misses Rosamond and Hazel Blackburn, of Fishburn, who are well known by many in this district, left on Tuesday for Portland, Oregon, where they will spend their summer vacation. While away, they will visit other points also.

A writer on success says that people should notice little things in life. Forgers, for instance, often pick up a piece of paper and make a note of it.

R. T. Johnson and daughter Ivy, of Bellevue, left last week on a visit to the Old Country. They will return in about three months.

## WORLD HAPPENINGS BRIEFLY TOLD

Five thousand members of the American Legion and lady members of the Legion auxiliary are to visit Winnipeg for two days in August.

A British Empire Trade Exhibition, the first of its kind to be held in any country outside the empire, is to be held in Buenos Aires from March 14 to April 27, 1931.

A new India House was opened in London by King George with an expression of hope for the emergence of India from her present troublous era into days of peace and contentment.

Official figures on unemployment, showed 1,815,300 out of work in Britain on June 23. This was about 70,000 less than on June 16, but 697,453 above the same date a year ago.

Sir Joseph Ward, former premier of New Zealand, who resigned a few weeks ago owing to ill health, is dead. Sir Joseph, who was known as "the grand old man" of New Zealand, was 74 years of age.

Ralph Collins, Edmonton, Alberta, has been awarded second prize in an entomological contest at the convention of the Optimist International, in Erie, Pa. Seven boys from clubs in the United States and Canada, competed. David Wolf, Washington, D.C., was first.

Marriages at famous Greta Green, the elopers' haven in Scotland, are to be made extinct by legislation. The Government plans to pass by next fall a measure which will make legal only marriages which will be performed by a clergyman or a registrar.

The Quai D'Orsay has submitted the name of Arsen Henry, who is French minister to Siam, to the Canadian Government for approval as the next French minister to Canada. Hon. Jean Knight, the first holder of this post, is returning to France to become head of the French Government Press Bureau.

### Plans To Visit the Moon

Scientist Has Perfected Model of a Rocket That Will Make Trip

At Horst, a little bathing place on the Baltic, Professor Oberth has been very busy of late perfecting an exact model of the rocket in which he intends visiting the moon. The model rocket is to be shot up by the explosion of the gas it contains and instruments concealed in it will record the composition of the atmosphere through which it travels. An automatic parachute will bring the rocket down again when the motors are exhausted. The rocket-model is expected to reach a height of 100 kilometers and to bring back valuable secrets.

### Boost For Alberta

Five Thousand Samples Of Alberta Wheat Sent To American

By way of an appropriate "boost" for Alberta, Hon. George Hoadley, Minister of Agriculture for the province, sent off 5,000 samples of Alberta wheat to American visitors to the recent Shriners convention at Toronto. It was pointed out that Alberta has carried off the world's wheat championship at the annual International Exposition at Chicago, four times during the past seven years, the honor going last year to Joseph H. B. Smith, of Wolf Creek.

### Building Permits

Building permits issued by 41 cities in Canada during May of this year were valued at \$19,621,302. For the first five months of 1930 the total value of building permits issued by these cities had a value of \$65,267,996.

A bird's eye is protected by three eyelids.

Another peace note. Italy will build twenty more warships.

Doctor: "You say you have been drinking six glasses of beer a day?"  
Patient (after a pause): "I really believe I used to drink a couple more."—Mumford, Munburg

W. N. U. 1248

### Will Explore Arctic Regions

Youngful Scientists To Spend Year In The North

Fifteen youthful explorers, whose average age is only 23 years, sailed from London recently aboard the exploration ship "Quest" for a year's exploration of the Arctic regions. Their work will be done on the recovered stretches of Greenland and Iceland. The purpose of the voyage, which is under the auspices of the Royal Geographical Society, is to obtain information with a view to establishing an air route from England to North America across the Arctic regions, with only 300 miles over the sea. H. C. Watkins, 23-year-old explorer, is leader of the expedition. His fourteen companions are all about the same age, and each is a specialist.

Watkins made a scientific exploration of Labrador last year, and of Spitzbergen the year before. The expedition will establish a base on the south-east coast of Greenland and a station on top of the ice cap, 8,000 feet above sea level. From there they will make notes on meteorological conditions in connection with flying.

The hold of the "Quest" was packed with a year's food supply, including six tons of food for the dogs, which will be picked up at the Faroe Islands. Four airplanes, two speed boats, sledges and several delicate meteorological instruments furnished by the government were included in the equipment.

A pampered passenger is a young turkey who is doomed to be served for the explorers' Christmas dinner. Reports here said that if the data gathered proves the feasibility of the air route, a test flight will be made, and Canada will be asked to make a similar survey of the western side of the American continent.

### Scotland's War Memorial

Not Even the Humblest Worker Has Been Forgotten

No one seems to be forgotten in Scotland's wonderful war memorial which is built on the Rock of Edinburgh.

There it stands glowing with the carmine colored badges of every Scottish regiment that served in the Great War. While in bronze friezes or stained-glass windows, sailors, artillerymen, airmen, chaplains, nurses, and other workers are depicted. Even birds and beasts have their memorials.

Carved on the walls are the words: "Remember also the humble beasts that served and died." Then come medallions framing the heads of a horse, a mule, a camel, a messengery dog, and other animals, with a cage of carrier pigeons and a group of canaries and mice inscribed, "The humblest of creatures are the most useful creatures are used underground, where their swift collapse when the air becomes poisonous is a warning to men."

Not even the humblest worker has been forgotten by the generous-hearted men who planned the building.

In the shrine is a block of marble set on the rock which rises through the floor, and on this block is a cast given by the King and Queen enclosing books containing the names of every Scotsman who fell in the war. It is a place of pilgrimage to Scotsmen all over the world, this holy place where the noblest heroes and the humblest creatures are all remembered together.

### Vancouver Boy Wins

Trip To England

Selected As Best All Around Canadian Model Aircraft Builder

Ross Farquharson, 16, of Vancouver, was selected as the best all-around Canadian model aircraft builder at the close of the national championships held at Ottawa. His victory, in both senior indoor events, added to his second and third places in the outdoor contests, won for him a trip to England as the guest of Lord Wakefield, of Hythe. He had a total of 17 points.

J. A. Chamberlin, of Toronto, was a close second to Farquharson in the individual total, finishing a first and second in the indoor events to add to the second-place points which he had won in the outdoor contests. He had a total of 15 points.

### Canadian Coke

During the past few years there has been such a marked increase in the use of coke for domestic purposes in Canada that this fuel bids fair to become a serious rival of anthracite, which has long been regarded as the standard fuel for this purpose, at least in the provinces of Ontario and Quebec.

Minister—And what parable do you like best, my son?  
Willie—The one about the multitude that lost and found.

## Winnipeg Newspaper Union

The Prince of Wales has taken his first glider lesson.

The lesson was given near Lewes, Sussex, by Robert Kronfeld, a German, who is reputed to be the world's champion glider pilot. It consisted chiefly of a demonstration as how to operate the glider, and it was understood the prince did not actually pilot the ship.

The prince long has been an enthusiastic aviator and is reputed to be an excellent pilot, although for reasons of state he is never permitted to make solo flights. He always is accompanied on his flights by one of the best Royal Air Force pilots, but the prince handles the controls except when taking off or landing on strange or difficult landing fields.

### Montreal Has Grown Rapidly

Is Now Fifth Largest City On the Continent

Few cities in Canada have shown such substantial growth as Montreal. Within a decade the total assessable property has doubled in value and is now \$1,200,000,000. In 1914 the population was 625,000; today there are a million people in the city proper. In 1914 there were 133 miles of streets and today there are 600 miles. The municipal revenue, which in 1914 was \$10,500,000, is now \$26,750,000. Montreal has reached the rank of the fifth largest city on the continent.

### Kept Appointment

Four Men Keep Tryst Started 31 Years Ago

Keeping a tryst started 31 years ago, four men met in Trafalgar Square, London, England, on a recent night. In 1899 six young decorative artists, H. E. Hansford, G. MacDonald, G. Clifton, E. Bille, Brown and Edwards, were notified that the studio in which they worked was to be razed. They then made a vow to meet once a year. This year only Mansfield, MacDonald, Clifton and Bille were able to attend, but two absent ones sent telegraphic greetings to their friends.

### Agricultural Conventions

Efforts will be made to bring as many large agricultural conventions as possible to the west at the time of the World's Grain Exhibition and Conference, in Regina, in 1932. According to a decision at a committee session, such conventions will be invited to meet directly prior to or following the show, in cities other than Regina. Delegates will thus be able to attend Regina session.

### Legislative Wheat Pooling

In accordance with the decision of the Delegates of the Saskatchewan Wheat Pool at the recent semi-annual meeting, a referendum will be taken among pool members on the question of legislative pooling. Ballots will be mailed from head office not later than August 1, and each contract signer is being asked to register a vote on the question.

### IT'S SMART AND WEARABLE

A sportive frock of yellow and white printed linen boasts of its plaid skirt treatment.

It has the smartly belted waistline like the grown-ups are wearing, that achieves a pinched-in effect.

A large yellow bone button attracts attention to the tail closing of bodice with interesting cap sleeves.

The back is quite straight and slender. Style No. 5444 is simplicity itself to make. It can be had in sizes 6, 8, 10, 12 and 14 years. For the miss of 8 years, 1½ yards of 39-inch material with ½ yard of 39-inch contrasting is sufficient to copy it exactly.

The two-piece skirt is merely pressed into box-plaid effect and attached to the bodice. Patch pockets stitched at edge of plaid, secure a snug hipline, to keep its line slender.

It's attractive in white cotton broadcloth printed in sailor blue polka-dots with cap sleeves, belt and pockets of plaid blue.

Shantung is stunning in opal-pink shade. Tub silks in baby blue or baby pink tones are just the cutest idea ever that promises to be very popular this summer for beach and country wear.

Ni green and white pique print worn with green leather belt is smart. Yellow-beige and brown stripe in men's cotton shirting fabric is very effective with the cap sleeves and pockets cut on the bias and worn with brown leather belt.

Printed dimity, printed handkerchief lawn and gingham checks also appropriate.

Price 35 cents in stamps or coin (coin preferred).

### A Remarkable Record

Seven Hundred London Firms In Business For Century Or More

It will be a surprise to Londoners to learn that their great city boasts no fewer than seven hundred firms that have been in business for one hundred years or more. When we consider how easily businesses change hands, how they fall into decay through a change of fashion or the coming of new inventions, how families die out and how the younger generation feels ever the urge to seek fresh woods and pastures new, it is a remarkable and praiseworthy record of industrious enterprise.

Although we may be inconstant in many things, we stand loyally by our prejudices.

The British Broadcasting Service will attempt to broadcast the roar of Niagara Falls.

### Takes First Glider Lesson

Prince Of Wales Conducted By Famous German Pilot

The Prince of Wales has taken his first glider lesson.

The lesson was given near Lewes, Sussex, by Robert Kronfeld, a German, who is reputed to be the world's champion glider pilot. It consisted chiefly of a demonstration as how to operate the glider, and it was understood the prince did not actually pilot the ship.

The prince long has been an enthusiastic aviator and is reputed to be an excellent pilot, although for reasons of state he is never permitted to make solo flights. ## SUNDAY SCHOOL LESSON

JULY 20

MOSES "A COURAGEOUS LEADER"

**Golden Text:** "By faith he forsook Egypt, not fearing the wrath of the king; for he endured, as seeing Him who is invisible."—Hebrews 11:27.

**Lesson:** Exodus 1:8-14; 2:1-22; 3:1-4; 11:1-10; 32:20-35; Deuteronomy 34:1-8; Hebrews 11:28-29.

**Devotional Reading:** Psalm 90:12-17.

### Explanations and Comments

"The Call Of Moses, verses 1-10. — The summons to become the leader of his people, deliver them from oppression in Egypt and bring them forth on their way to the Promised Land, came to Moses as, in his care of the flock of his father-in-law, Jethro, the priest of Midian, he wandered from the back of the wilderness (that is, the west; the east is always the front). To Jethro, the mountain of God, there before the bush that burned and yet was not consumed, Moses heard God speaking to him, just as the account of the temptation of Christ in the wilderness must have come from Christ Himself, and is his pictorial way of portraying His inner experience, so the account of the call of Moses by Moses himself, and may have been given by him in this pictorial way. The burning bush may have been an outward representation of an inward experience—the flame of enthusiasm for a great cause. Be that as it may, it is assuredly true that Moses had given by him the divine origin of the glowing beauty of the bush; he was able to see God in the things of everyday life."

"Moses stood before an ordinary bush, and he became aware of God; Jethro stood before a budding almond tree while all around was dead, and he became aware of God; Wordsworth stood before a little primrose on a rock, and it became to him the court of the Deity."—J. H. Jowett.

"Do not put off till tomorrow what you can do today." Recall Jacob's sense of God's presence at Bethel and the holiness of the place.

"Earth's crowned with heaven, and every common bush alive with God. But only he who sees, takes off his shoes."—Mrs. Browning.

With a new flash of insight Moses knew that God was calling him to a stupendous task, that it was God's will that he should return to Egypt and accomplish the deliverance of the enslaved Israelites. All this is expressed in the words of verses 7-9.

Railway Passes In The Rockies

The map sheets of the International Boundary between Alberta and British Columbia, published by the Topographical Survey, Department of the Interior, show the three passes of the Rocky Mountains through which railways have been constructed. Crow's Nest Pass has an elevation of 4,435 feet; Kicking Horse Pass 5,320 feet, and Yellowhead Pass, 3,711 feet.

English Students For Canada

Hamilton Hyde, the new head master of Queen's University, Kingston, stated recently that a movement was afoot to send a number of English public school boys to go to Canadian universities in the same manner as Americans and South Africans are Rhodes scholars at Oxford.

China, home of the silkworm, is now importing artificial silk.

It takes eight large eggs, or nine small eggs, to make a pound.

## Reciprocal Trade

British Bankers In Favor Of Free Trade Within the Empire

Reciprocal trade agreements between the nations comprising the British Empire and the retention of an open market for Empire products was urged in a resolution adopted recently by representatives of several leading British banks meeting in the offices of Hambro's Bank, London, England. The meeting was presided over by Sir Eric Hambro.

"Urgent measures for the promotion of inter-empire trade are needed to secure and extend the market for British products, both at home and through export trade," the resolution read. "Bitter experience has taught Britain, that hopes expressed four years ago in the plan for removal of restrictions upon European trade have failed. Restrictions have been materially increased and the sale of surplus foreign products in British markets has steadily grown. While we retain hope for the ultimate extension of free trade worldwide, we believe the immediate step for securing and extending the market for British goods lies in reciprocal trade agreements between the nations of the British Empire. As a condition of securing these agreements Britain must retain an open market for all Empire products while being prepared to impose duties on all imports from other countries."

### London Traffic Project

Scheme To Construct Underground Lines For Transportation Of Goods

A scheme is on hand to make possible the removal of goods traffic from London streets. It consists of the construction of underground lines, with fifty-four stations, for the sole purpose of carrying goods. The promoters are anxious to build twenty-five miles of tubes at a cost of about \$200,000,000. All the principal railway termini and goods yards would be connected; the docks, wharves, and public stores would have their private stations. It is said that 125,000,000 tons of goods are carried annually in London, and the trade of the Port of London amounts to \$144,000,000 a year. According to the promoters of the new scheme the cost of existing competition in the streets is \$120,000,000 per annum, while the railways have estimated at \$300,000 a year the amount of money they lose by the detention of goods lorries at Billingsgate Market alone.

Eighteenth Century Newspapers

The first newspaper in Quebec appeared in 1764 when the Quebec Gazette was founded. The "Royal Gazette" and "New Brunswick Advertiser" appeared at St. John in 1785, and the first paper in what was then Upper Canada appeared in 1793 at Niagara (then Newark), under the name of the "Upper Canada Gazette and American Oracle."

China, home of the silkworm, is now importing artificial silk.

It takes eight large eggs, or nine small eggs, to make a pound.

MADE IN ENGLAND SINCE 1911 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but

allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

**LAVA USED FOR ROAD SURFACE**

All Canadian motorists are familiar with road-building methods in this country, and with the imperative "Detour" signs which indicate that highway doctoring operations are in progress. In contrast, patient oxen are used in Malaga, Spain, to pull heavy, rough stone rollers back and forth over the prospective highway, the material itself being transported there on burros and scattered by hand. In the Bavarian Alps, huge machines crush limestone and mix it with asphalt. In Colombo, Ceylon, sparsely-gowned blacks do some of this rock-crushing by hand. Between Mexico City and Pueblo, a highway, recently finished, is hard-surfaced with lava from near-by volcanoes, brought there in great trucks hauled by caterpillar tractors. The modern equipment used for road construction in Morocco contrasts strangely with the wildness of the desert and the picturesque costumes of the laborers.

**Local and General Items**

J. B. Wilson, local bank manager and golf enthusiast, has joined the great hole-in-one minority.

The Natal-Michel baseball club will hold a dance in the Kootenay hall at Natal on Monday night next, the 21st.

The meetings held in Pass towns the early part of the week by Mr. G. G. Coote were fairly well attended. Mr. Coote was assisted by Mr. H. E. G. H. Scholefield, vice-president of the U.F.A. The local meeting was presided over by Evan Morgan.

It is refreshing to greet a newcomer to town, especially when he tells you that he is willing to help in community or civic affairs. Every community needs people of that kind, who do not hesitate at some personal sacrifice to put things over.

Pete Askaker, hotel manager, and his wife went fishing to Deep Creek, in the Saskatchewan gap. Pete says lots of fish and lots of fishermen to catch them. We don't think Pete got up early enough—Saunders Creek notes in Red Deer Advocate.

Local merchants, who aim to retain trade by advertising in the home paper and keeping trade at home, are doing a service to the community. Merchants who do not try to keep business in the home town by carrying a live advertisement in the home paper do not deserve home town business.

Lieut. Anthony Farrar, 22, of Winnipeg, was accidentally killed when he was struck in the head by a stray bullet at target practice. In charge of targets, he was standing within range of fire. He was a former resident of Victoria, B.C., and was married last September to Miss Jean Gibson.

Leithbridge is confronted with a claim for damages for bites from a muskrat in Henderson Lake. The claim set forth that while Miss Le Touss was swimming in that portion of the lake which is used for swimming, on June 10, she was attacked by a muskrat and bitten in several places, with the result that she has been under the care of the doctor until the last few days. It is claimed that the place where she was swimming is under the supervision of the city, held to be a safe and fit place for swimming. Damages in the sum of \$15 doctor's account, hospital account \$2.50, and general damages \$250 are claimed.

**Local and General Items**

Mr. and Mrs. P. Chardon returned the early part of the week from a holiday motor trip to Spokane.

G. Meffan, J. W. Gresham and others returned to The Pass yesterday, after the annual two weeks' crush-up at the Sarcee military camps, Calgary.

The marriage of Miss Mary Edna, daughter of Mr. and Mrs. A. Swanson, to Daniel A. Boyle, son of Mr. and Mrs. James C. Boyle, took place at Granum on July 7th.

A son was born recently to Mr. and Mrs. Henry Pellet, at Claresholm hospital. Mr. Pellet was a former resident of Blairmore and Cowley, but is now engaged in farming near Parkland.

Married, at Couer d'Alene, Idaho, July 5th, Mabel, eldest daughter of T. J. and Mrs. Shepherd, Medicine Hat, to Glen, son of Howard J. Upton and the late Mrs. Upton, of Pincher Creek.

There will be a meeting of the Blairmore Amateur Athletic Association in the Cosmopolitan hotel parlor on Tuesday next, July 22nd, at 8 p.m., to receive reports on activities of this year's field day. Everybody welcome.

Miss Norma Joyce is a visitor here with her sister, Mrs. Carl Carlson. Miss Joyce has just completed her normal course of studies and has been assigned the Robert Kerr school, southeast of Pincher Creek, for the opening of the fall term.

Rumor has it that a well known local reservist, of Scottish origin, who had been in military camp at Calgary, was detained in the city for twenty-four hours waiting for an interpreter who could give the C.P.R. ticket agent to understand just what destination he was heading for.

Three residents of Frank and Bellevue appeared before court here on Tuesday, charged with creating a disturbance in a local restaurant on Saturday night last, when various threats were made to the occupants. They were assessed fines and costs ranging from \$5 to \$20 each.

Constable Taylor, for about a year connected with the local A.P.P. detachment, has been transferred to Taber and left for his new post last week. He is succeeded by Constable Fordham, who with his wife arrived last week end. Constable Fordham was formerly connected with the force here.

**LODGE DIRECTORY**

### BLAIRMORE SETTLES DOWN TO CRICKET

Considerable interest is being awakened in cricket in Blaimore, and almost daily newly organized teams are either practicing or playing in real earnest for the mastery.

A number of excellent games have been played during the past few weeks, the one on Monday night between Ye Olde Boys and Ye Young Boys resulting as follows:

Ye Olde Boys' inning—  
 H. Blake 6, caught out by Gusty.  
 T. Hadwell 2, out L.B.W.  
 W. Patterson 11, caught out by Evans.  
 A Womersley 12, caught out by Kemp.

Ye Young Boys' inning—  
 T. Williams 5, caught out by Kemp.  
 E. Womersley 7, run out.  
 C. Millar 0, hit his own stumps.

E. M. Thompson 3, stumped by Tony.  
 S. Price 1, bowled out.  
 E. Morgan 1, caught out.  
 J. W. Whitehead 2.  
 Total 47, all out.

Ye Young Boys' inning—  
 D. Kemp 0, bowled out, Patterson.  
 T. Vejprava 3, caught out, Patterson.  
 Bob Thompson 3, bowled out, Hadwell.  
 Vangroisnoven 5, caught out, Blake.  
 "Dick" 8, caught out, E. Womersley.  
 "Chuck" 0, bowled out, Hadwell.  
 G. Maniquet 0, bowled out, Hadwell.  
 Evans 1, not out.  
 Total 26. Ed. Royle official umpire.

Note—Blaimore has a cricket team prepared to play any, in the Crows' Nest Pass.

**LITTLE CHURCH ON WHEELS**

In years gone by, some people experienced a great deal of difficulty in harmonizing the church and the motor car. It was their candid opinion that the two were headed quite in opposite directions. These people—and most others—would receive a great shock were they sight-seeing in the State of Minas Geraes, Brazil, when a certain little church down there happens to be on tour. This miniature edifice is mounted on a Chevrolet chassis. It is driven through the outlying districts of the state and becomes the centre of religious services conducted for hundreds of people in each of the places it visits. Moreover, most of these people are in such a financial condition that they are unable to support a permanent place of worship.

# Send G. G. COOTE Back to Ottawa

He has represented the people of the Macleod Constituency with courage and ability.

Mr. Coote has never been false to the confidence placed in him

Mr. Coote has represented you well for nine years

## Mr. Coote deserves credit for:

- Reduction in tariff on motor cars and trucks.
  - Amendments to the Grain act.
  - The appointment of a new Board of Grain Commissioners.
  - Old Age pensions.
  - Advocating a National Highway.
  - He was largely responsible for government assistance for the movement of coal from the Crows' Nest area to Manitoba.
- Macleod Federal Constituency Association of U.F.A.

Tailor, to Scotchman, who was having a suit made to order: "How do you want the jacket made?"  
 Scotchman: "Weel, w' the pockets a little d'ficult to reach."

Mrs. Moser and Mrs. Stobbs, of Hillcrest, accompanied by Miss Maud Chardon, of Blaimore, left this morning by motor for Spokane and coast points, holidaying.

## How's Your Bank Account?

It is a common thing for parents to open a bank account for a very young child, taking care of the account until the child is old enough to manage it. Then the bank book is turned over, and Dick or Ruth shoulders a new responsibility.

In this way the child, in early life, taught the valuable habit of thrift. Practical lessons in the keeping of accounts and records are learned. And as these small savings are conserved and mount upwards, a substantial sum of money is created which will make adequate provision for the later education of the child, or constitute a reserve of capital to start a business or enable a girl to assist in establishing her own home.

Famous leaders in commerce have said that regular saving, even on a small scale, is the surest foundation for financial success. To save only five dollars a week is to build up a financial reserve, which will grow. To contract five dollars debt weekly is to accumulate a growing burden.

Nature starts each of us with an account at the Bank of Health, which is handled in trust by older folk, until we reach the age of responsibility for the care of the body. It makes all the difference in the world whether we handle our health account wisely or foolishly.

How is your account at the Bank of Health? Have you a good balance? Is it shrinking instead of growing? You ought to know.

Nature abhors and punishes waste while she approves and rewards thrift, both in what we call the big realm of Nature and in the individual human life.

Experts tell us that reckless and unchecked cutting and fishing threaten the existence of some of the world's largest forests and fisheries. The supplies we thought unlimited may fail. We are learning that continuance of supply depends on conservation, which is simply a bigger word for thrift.

The same is true of health. Nature exacts heavy penalties for waste. Preventive work promotes and assists the practice of health.

Just as a savings account is built up by small deposits, so, too, must our health reserve be built up. Enough food and exercise, enough rest and relaxation, must be deposited in the Bank of Health every twenty-four hours.

These deposits must be in good currency, too. Nature, like our bankers, accepts no bad bills or counterfeit coins.

Why not look into this matter of your account at the Bank of Health? A wise way to begin is to go to your doctor for a complete medical examination. Don't wait until you are sick to visit your doctor; go to him when you are well and have him check you up. Take stock.

Another good plan is to repeat the process of a thorough medical examination at least once a year—say, on your birthday anniversary. In this way any disease which may, quite unknown to you, be making insidious headway, will be discovered in its early stages, checked and cured, but which if left to develop undisturbed until you begin to "feel sick" may then have reached the stage where it is beyond cure.

## World's First Talkie Sign

Novelty Introduced At Chicago By Envelope Company

What is probably the first talking sign in the world made its debut before a crowd of over 3,000 Rotarians, telling about its schools, churches, parks, playgrounds, libraries, universities, boulevards, policemen and other civic assets.

George D. Gaw of the Gaw-O'-Hara Envelope Company, is responsible for the sign, which is a 50-by-20-foot affair on the envelope company's plant in North Sacramento boulevard.

The speech was made before the microphone and amplified through the loud speaker hidden in the neon lettering but in the future records lauding the city and boosting for its "Century of Progress" will furnish voice to the sign throughout the day, according to Mr. Gaw.

## Motorist Sued For Train Wreck

Had To Pay \$10,000 For Causing Derailment In Illinois

Automobile drivers must pay for the train wrecks they cause under certain circumstances. Such was the gist of a decision handed down by the district court for the southern district of Illinois and reported by the legal department of the American Motorists' Association. The suit arose as the result of a motorist driving over the tracks of a railroad, causing the derailment of an engine and five freight cars. The railroad sued the motorist for \$30,000. A verdict of \$10,000 was given, which was sustained on appeal to the higher court.

A tornado may travel as slowly as ten miles an hour, or it may speed at sixty.

Lead Mines of Spain and Britain were worked more than a thousand years before Christ.

## Four Doses Relieved Bad Attack of Cholera

Mr. W. J. Cooper, Maugham, Alta., writes:—"A year ago last spring I arrived in Canada with my family, and one of my boys, aged six, was suffering very much with cholera. When we arrived I had a new house to wait, and told one of the attendants at the station about it, and he asked me if I had ever tried Dr. Fowler's Extract of Wild Strawberry. I had never heard of it in England, so he told me I could get it in Winnipeg. I am pleased to say I had only to give the child four doses and he got well and was quite cheerful by the next morning."

## Airplane Flight To Far North

Government Planes To Open Up Air Route In Sub-Arctic Areas

To inspect aeroplane supply caches in the Canadian sub-Arctic and with a view to opening up aerial communication routes in the Barren Lands belt, in the Northwest Territories, a special detachment of the two government aeroplanes will leave Rockcliffe Aerodrome in the near future for an air tour which may extend over 25,000 miles, most of it over a little travelled country.

Flight Lieut. F. J. Mawdesley, of the civil aviation branch of the Department of National Defence, will be in charge and will pilot one of the two planes. Flight Sergt. H. J. Winny will pilot the other. In addition to the two pilots there will be two mechanics, Corporal S. C. Dearway, who will be the camera operator, and C. S. McDonald, inland surveyor of the topographical surveys.

The flight will be the first official government step toward the opening up of air lines in the North West Territories. The majority of the trip will be in the vicinity of the Mackenzie River Basin, the Great Slave Lake area and northward to Coronation Gulf. The flight will also travel over that part of Canada lying to the west of Hudson Bay north of Churchill. With only a few exceptions all the caches to be inspected will be just to the south of the Arctic circle.

The detachment will return to Ottawa before the freeze-up.

## SUMMER HEAT HARD ON BABY

No season of the year is so dangerous to the life of little ones as is the summer. The excessive heat throws the little stomach out of order so quickly that unless prompt aid is at hand, the baby may be beyond all human aid. The mother's best friend is Dr. Williams' Pink Pills. Summer is the season when diarrhoea, cholera, infantum, dysentery and colic are most prevalent. Any of these troubles may prove deadly if not promptly treated. During the summer the mother's best friend is Baby's Own Tablets. They regulate the bowels, sweeten the stomach and keep baby healthy. Tablets are sold by medicine dealers or by mail at 25 cents a box from The Williams' Medicine Co., Brockville, Ont.

## Edmonton Exhibition

Prize List Contains Regulations Regarding Slaughter of Show Animals

The Edmonton Exhibition prize list contains a regulation in the cattle section, that any animal exhibited, which has been so treated as to alter its natural conformation, will be disqualified. Competent veterinarians will examine the cattle to ensure the enforcement of this regulation. This is in line with the present wide agitation to eliminate the cutting and the surgical or other treatment of show animals for show ring purposes.

After Ten Years Of Asthma Dr. J. D. Kellogg's Asthma Remedy, which has been so treated as to alter its natural conformation, will be disqualified. Competent veterinarians will examine the cattle to ensure the enforcement of this regulation. This is in line with the present wide agitation to eliminate the cutting and the surgical or other treatment of show animals for show ring purposes.

## Chicago Stock Exchange

Suggested That Membership Be Extended To Canadians

The governing committee of the Chicago Stock Exchange has recommended to the membership of the exchange that the constitution be amended to admit Canadian citizens. Unless disapproved by the members in ten days, the proposed change will become effective.

Announcement was also made of plans to extend the Chicago Stock Exchange's ticker service into Canada within the next six months.

## A Huge Birthday Cake

One of the largest birthday cakes ever cut in London was consumed recently when the British and Foreign Bible Society celebrated its 126th birthday. The cake weighed 126 pounds—a pound for every year—and carried 126 candles. The cake was made in the design of a Chinese building.

Voluntary Bird Census Takers. Many hundreds of persons in Canada and the United States are voluntarily assisting in the taking of a waterfowl census to determine any increase or decrease in the numbers of waterfowl that inhabit North America. This is not strictly census, but very valuable data are being secured.

Minard's Liniment checks Colds at once.

W. N. U. 1846

## Saskatchewan Loses Valuable Man

Dr. W. Carrothers Accepts Appointment At University Of British Columbia

Dr. W. Carrothers, professor of economics at the University of Saskatchewan, who has accepted an appointment as professor of economics at the University of British Columbia, will leave Saskatoon in time for the opening of the fall term sometime in August.

Born in the County of Fermanagh, Ireland, Dr. Carrothers attended college at Belfast, coming to Canada in 1911. He attended Wesley College, affiliated with the University of Manitoba, graduating from there in 1916 with the degree of bachelor of arts. Upon leaving university, Dr. Carrothers enlisted with the 44th Canadian Infantry, later transferring to the Air Force. He was awarded the D.F.C. and the Croix de Guerre.

Following the war, he attended Edinburgh University and studied under Professor J. S. H. Nicholson, obtaining the degree of Ph.D. He was appointed to the staff of the University of Saskatchewan as professor of economics.

At the University of British Columbia, the departments of economics, sociology and political science are combined. Dr. Carrothers will be in the economics section, holding the position of second in the department.

Dr. Carrothers' work during the past few years has received wide spread notice. His book, "Immigration from the British Isles," published in 1929, was very favorably received.

He has been closely identified with the work of returned men, for two years holding the position of president of the Canadian Legion here, and he also served a term as president of the provincial committee. Since last December he has served as an alderman on the city council in Saskatoon, having been elected in the civic elections at that time.

## The Imperial Conference

Material Resources and Wealth Possessed By British Empire

The British government intends to enter the Imperial Conference free and unfettered by prejudice or bias, declared Right Hon. J. H. Thomas, secretary for the Dominions, in addressing the Empire luncheon at the opening of "Civic and Empire Week" at Colchester, Essex.

Mr. Thomas proceeded to discuss the unemployment problem and Great Britain's handicaps as the result of the financial burdens of the war. He said the Imperial Conference would give an unique opportunity for a free and unfettered discussion of all the Empire's financial problems. He examined it, everything the United States possessed in material resources and wealth was possessed within the ambit of the British Empire.

"It is because of that knowledge that I, on behalf of the government, announce we intend to enter the Imperial Conference to consider every problem on its merits, unfettered by prejudice or bias, and prepared with a single minded desire to try to find a solution of the problem," he said.

## Has Heavy Task

New U.S. Minister To Canada Has Busy Days Ahead

The United States senate without a record vote has confirmed the nomination of Colonel Harbord L. MacNider, of Iowa, as minister to Canada.

His tasks as American minister to Canada will be trying. There is bitter resentment throughout the province toward the new tariff bill, the stipulations of prohibition enforcement on the border have almost exhausted the patience of Canadians. The administration of the immigration laws, too, stands in need of civilizing.

Colonel MacNider has many busy days ahead of him—Memphis Commercial Appeal.

## Japan Building Planes

Army airplanes built entirely in Japan are proving highly satisfactory, according to an official report issued by the aviation department of the ministry of war. Recently two scout planes made night-flying tests in which they met every requirement of safety, speed and general airworthiness. Airplanes are now being manufactured extensively by the Kawasaki and Mitsubishi dockyards.

Minard's Liniment for all Strains.

## The Bishop's Discovery

"I never knew until I got a car," said the bishop, "that profanity was so prevalent."

"Do you hear much of it on the road?"

"Why," replied the bishop, "nearly everybody I bump into swears dreadfully."

## Serious Rectal Troubles Often Caused By Harsh Cathartics

ENO is pleasant, gentle, safe and sure.

A daily dash of ENO'S "Fruit Salt" in a glass of water, morning or night, tones up and sweetens the entire system. Acid stomach, fatigue, biliousness, quickly disappear.

# ENO'S "FRUIT SALT"

## Montreal An Important Port

Claims To Hold the Lead As a Grain Exporting Port

Despite the retarded grain movement in Canada in 1929, Montreal continued to hold the lead as a grain exporting port in North America, the comparison with other main ports on the continent being given in the Montreal Harbor Commissioners' annual report as follows:

Montreal	90,694,208 bus.
New York	68,895,982 "
Baltimore	38,746,057 "
New Orleans	18,279,799 "
Baltimore	17,600,049 "
Philadelphia	9,419,595 "
Boston	4,104,479 "
Portland, Me.	2,427,655 "
Newport News	1,622,785 "
Mobile	1,115,559 "

## UNCOOKED SALAD DRESSING

Warm weather and plenty of vegetables combine to make the tempting salad a frequent dish on the menu. The secret of a delightful salad is the dressing and here is the recipe for an uncooked salad dressing that will be relished by every member of the family—and it can be made up quickly, and once made, it will keep for weeks:

- 2 eggs.
- 1 teaspoonful salt.
- 1 teaspoonful mustard.
- 1 cup vinegar.
- 1 can Eagle Brand Milk.

Beat vigorously all ingredients except vinegar, for a few minutes. Add vinegar, stir well and set aside for a few hours to thicken.

Persian Balm is magical in creating aluring complexions. A little gentle rubbing and your skin is invigorated and touched with the true beauty of youth. Charming, fragrant. Delightful to use. Cools and carresses the skin. Relieves all roughness and chafing caused by weather conditions. Tones and stimulates. Enhances and protects the loveliest complexion. Unrivalled as a perfect aid to beauty and charm.

The Regina Leader-Post says: "An optimist is a man who expects to do this year's business on last year's advertising."

## French Evacuation Of The Rhine

Reports State That Departure Of Troops Was Somewhat Hurdled

All was not so quiet and peaceful as official reports stated when the last French troops left Mainz and Wiesbaden recently, according to the Paris National organ, "La Liberté," which describes the departure under the headline of "violent incidents."

La Liberté says that, owing to hostile manifestations, booing and whistling by the crowd at the Mainz station, Gen. Guillaumat, commander-in-chief of the Rhine army, had drawn the blinds of the compartment occupied by himself and his staff. The newspaper also quotes a German newspaper story to the effect that the French troops covered the distance from their barracks to the railroad station in two minutes, whereas ten minutes was usually taken for the same march.

The Lokal Anzeiger calls it "pre-occupied departure."

Gen. Guillaumat himself, who arrived in Paris with the president of the Inter-allied high commission, M. Tirard, declared the departure of the French troops was effected normally without any noticeable incident.

M. Tirard said: "We have given evidence of our confidence in the good faith of Germany. May it be understood and appreciated by the government and population of the Reich."

## Time Not Worth Much

Do you know how many feathers are on a hen's back? The winner of a recent contest to determine just that has found there are on an average of 8,120. The winner dissected a hen's skin and painstakingly numbered each feather, arriving at the above total.

After thirty-five time seems to pass so rapidly that by the time you have forgiven somebody for his Christmas present it's time to do it all over again.

Talkies in German were recently shown in Helsinki, Finland, with some success.

## Don't Let Foods Stale

Foods that ordinarily stale quickly will stay fresh and tempting a surprisingly long time if you cover them with Para-Sani Heavy Waxed Paper.

Your grocer, druggist or stationer has Para-Sani in the handy, sanitary knife-edged carton. For those who prefer a lighter paper put up in handy form ask for Appleford's "Centre Pull" Packs.

HAMILTON LIMITED ONT.

Western Representatives:  
HUNTER-MARTIN & CO., REGINA, SASK.

## BORDER PATROL IS COMMENDED BY U.S. OFFICIAL

Washington.—The Canadian border patrol was credited by Representative Clancy, Republican, Michigan, with having "practically killed illicit liquor traffic across the United States border."

Emphasizing that the Canadian Government is "absolutely co-operating," Clancy contended that there was no necessity for the "dangerous activities of the United States patrol in operating its boats without running lights." He recently protested to the treasury department that this was the practice of the United States patrol boats.

While lauding the Canadian border patrol for its "honesty, courtesy, service and efficiency," the Michigan representative quoted E. W. Camp, former commissioner of customs, as describing the United States border patrol as "about 90 per cent crooked or inefficient."

Clancy attributed the difference he portrayed to the different liquor laws of the two countries. Canadians, he said, "respect and obey their liquor law because they have a good one" in the United States, he said, "we can't build our jails fast enough."

## France Delays Naval Program

Will Open the Way For Naval Negotiations With Italy

Paris, France.—Foreign minister Aristide Briand has announced suspension of France's shipbuilding program until December, to open the way for naval negotiations with Italy. He told the Foreign Relations Committee of the Chamber of Deputies, at the same time, that "another war in Europe is impossible and inadmissible."

M. Briand assured the committee there was no reason for "emotion concerning the relations between France and Italy."

Declaring that no more ships would be put on the stocks in the French building program before next December, Minister Briand said Premier Mussolini had been informed of that fact officially. In conclusion, the foreign minister asserted that while Italy had announced never party the Italian government never had furnished figures or arguments to justify the claim.

## Must Import Wheat

Portugal Is Now Faced With a Serious Shortage

Lisbon, Portugal.—Because of a shortage of wheat, the National Association of Millers have suspended work. No fear of a bread famine was felt, however, since army stocks are sufficient to keep up the daily supply without resort being made to a ration system until the government is able to modify the law concerning the import of foreign wheat.

The public has been advised not to waste bread and the Minister of Agriculture has ordered all wheat merchants to declare their stocks so the government may be able to fix the quantity to be imported above the legal quota.

Alarming reports have reached Lisbon from certain parts of the interior where there is a serious corn shortage.

## New Woman Member For British House

Fourteen Now In Parliament, Nine Being On Labor Side

London, England.—With the election of Lady Noel Buxton to the House of Commons in the North Norfolk by-election, there are 14 women in parliament, the greatest number in history.

Of the 14, nine are Labor members; three Conservatives; one Liberal and one Independent. One of the 14, Right Hon. Margaret Bondfield, Minister of Labor, is the first woman to become a member of the British cabinet, while another, Miss Susan Lawrence, is parliamentary secretary to the Ministry of Health.

### Population Of Prince Albert

Prince Albert, Sask.—Local civic officials and members of civic boost organizations are claiming a population of 12,000 for Prince Albert, the voters list having shown there are 7,785 voters within the boundaries of the city. This new total is based on the contention that the number of those entitled to cast a vote is generally about one-third of the population.

W. N. U. 1946

## Labor Government Escapes Defeat

Have Slim Majority On Critical Decision In British House

London, England.—Macdonald Labor Government escaped defeat by the slim majority of three votes in a critical division in the House of Commons on the finance bill. It was the smallest majority in this government's career, which was sustained by eight votes two months ago on the coal mines bill and lost a vote on a minor clause of the coal bill before that.

The vote was against an amendment moved by Rt. Hon. David Lloyd George, the Liberal leader, under which profits spent upon modernization or improvements of plants or machinery would be rendered exempt from income tax.

Although it was the Liberal leader who sought the amendment, which met adamant opposition from the chancellor of the exchequer, it was some of the Liberals who saved the government, and further weakened the oftbroken solidarity of the Liberal party in the House. Four Liberals voted with the Labor government. They were D. Simon, of the Westminster division of Manchester; Sir William Edge, Leicester; Sir Robert Hutchison and Percy A. Harris, Bethnal Green. Beside these, several Liberals, including Sir Godfrey Collins and Sir Donald McLean, abstained from voting.

## Boy Scout Jamboree

First Official Jamboree Ever Held In Canada Staged At Prince Albert National Park

Prince Albert.—First boy scout jamboree ever held in Canada was officially opened in Prince Albert National Park, with 475 scouts answering the roll-call. Situated on beautiful Lake Waskesiu, the site selected for the camp is ideal in every way. "Big Beach," nearly half a mile long, paved with clear, white sand, and curving out to Prospect Point, offers fine bathing facilities, combined with perfect safety.

Waskesiu Beach, the park headquarters and the site of the western summer home owned by Premier Mackenzie King, is a government motor camp, equipped with kitchen shelters, open fireplaces, life-saving equipment, warden's quarters, service and dining saloons.

## Ban On U.S. Apples

Order Issued By British Government Effective Between July 7 and November 15th

Toronto, Ont.—A. M. Wiseman, British trade commissioner for Canada in Ontario, has received official information from the British government of an order just issued, prohibiting the importation of raw apples from the United States into the United Kingdom, between July 7 and November 15.

Shipments of the ban are in barrels, United States fancy and United States No. 1; in boxes, extra fancy and fancy. These must be accompanied by certificates signed by an authorized inspector of the United States department of agriculture. It is learned that the embargo may be due to a fruit fly known as the "railroad borer," which is not believed to exist in England.

## Disastrous Forest Fires

Loss In Northern Saskatchewan During Three Months \$158,920

Prince Albert, Sask.—Forest wealth of more than \$158,920 went up in smoke in the fire ravages in Northern Saskatchewan from April 1 to June 30, Dominion forestry office revealed. This figure covers only 195 of the 223 fires reported in this period, but it includes the major conflagrations.

Including the disastrous fire at Birch Lake, 171,627 acres were burned over by the fires; 17,723,000 board feet salvageable saw timber destroyed, and 3,053,000 board feet destroyed. Sixty-five thousand of the 108,358 cords of fuel and pulpwood in fire areas are salvageable. Causes of the fires are summarized as follows: Settlers, 91; campers and travellers, 43; incendiary, 34; railways, 14; smokers, 6; unknown, 5; lightning, 1, and lumbering 1.

### Marksmen At 78

Blaisy Camp, England.—Sergt. MacKay, of Scotland, is 78 years of age. He won the King's prize, classic for Empire marksmen, though it was called the Queen's prize then, back in 1883. But if anybody thinks he is losing his keen eye and steady hand he has only to point to the score card he hung up at the Blaisy mark recently—six consecutive bulls' eyes at 500 yards.

## Testing Out Glider

Flight Across Atlantic May Be Attempted Later

New York.—A wireless message from the liner "Saturnia" revealed that the glider "Clairborne Posters" stayed in the air for eight hours, believed to be the longest ocean flight ever made in a towed glider.

The glider, named for the Broadway actress who is sponsoring the venture, in being taken to Gibraltar for an attempted east-west flight across the ocean behind a ship. On the eastward voyage practice flights are being made by the youthful owners, Hugh Keavney and Robert Lewis.

## Had Narrow Escape

Marksmen Left Grain Bin Buried Before Wall Gave Way

Markinich, Sask.—J. E. Burke, local agent for the North Star Grain Elevator Company, narrowly escaped being buried alive here when a grain bin in the elevator, next to the one he had been cleaning, burst open, just as he had climbed out, pouring several tons of wheat into the space he had just vacated.

Had the breakage occurred but a few moments sooner, it is probable that Burke would have been hopelessly trapped in the bin, with little, if any, chance of getting out.

## VICEROY WOULD DEAL WITH FIRM HAND IN INDIA

Simla, India.—A fight to the finish with the civil disobedience movement was promised by the viceroy of India, Lord Irwin, in his address to the Indian legislature at Simla.

"As long as civil disobedience persists we must fight it with all our strength," Lord Irwin said. "I believe the right and best solution to the middle of India will be found only in Britain and India joining together in the search."

Lord Irwin bitterly denounced the civil disobedience method of procedure instituted by Mahatma Gandhi, now jailed. He said it was a "deliberate attempt to coerce established authority by mass action."

"It, therefore, on account of its nature and inevitable developments, must be regarded as unconstitutional and dangerously subversive. Mass action, even if the promoters intend it to be non-violent, is nothing but the application of force under another form. And when it avowedly is intended to make government impossible, the government is bound either to resist or abdicate."

The present movement is exactly analogous to a general strike in an industrial country intended to coerce the government by mass pressure instead of argument."

In reference to the Simon commission's report on India and the proposed round table conference in London next autumn, Lord Irwin said:

"The responsibility of expressing a considered opinion has now passed to the government of India—and just as the Simon commission would have failed in its duty to parliament if it had not presented a report reflecting faithfully its own conclusions as members of the British Parliament, so the government of India would fail in its duty if, similarly, it did not approach a consideration of the commission's report with complete liberty of judgment."

## IN MOTOR ACCIDENT

Duke of York, who figured in a motor collision on his way to the second cricket test match at Lords. He was uninjured.

## Investigate Butter Prices

Charge Made That Combine Exists Amongst Certain Produce Companies

Ottawa, Ont.—Charges that a combine exists amongst certain produce companies with a view to depressing the price of butter to the producers may be ventilated under the Combines Investigation Act, at least in one section of Canada, if the representations of Jean Francois Pouliot, former Liberal member of Parliament for Temiskaming, Que., are prosecuted to their ultimate stages.

In a communication to Hon. Peter Heenan, Minister of Labor, was enclosed a copy of a newspaper circulating in his constituency where, in the assertion in which the wholesale dealers "keep the market prices low when they purchase butter and accumulate it in cold storage for some time, selling it at an exorbitant price to the consumer later."

"They thus deprive the farmer of his legitimate profits," says Mr. Pouliot.

The former member asked the minister to intervene under the Combines Investigation Act.

## Crooks Displace Decent Men

Given Election Posts In Chicago Despite Records

Chicago, Ill.—Throwing an illuminating light upon Chicago election disorders and the ability of known crooks to get into public life, from minor positions to the state senate and the bench, a supplemental petition has been filed before County Judge Edmund V. Maguire.

The petition names 211 men and women, alleged to have police and criminal records, who have been appointed as election judges and clerks. This petition, signed by a large number of reputable voters, follows one filed last month in which 275 judges and clerks were named as having police or prison records. Men and women judges and clerks with clean records were displaced to make room for the list handed in by the political bosses, it is asserted.

### Expects Heavy Crop

Saskatoon.—Third generation Marqu wheat is standing four feet high on the farm of Henry W. Fisher, at Hague, Sask., north of here, and the heads are about four inches in length. If nothing happens to it, Fisher expects his 50-acre crop to go over 40 bushels to the acre.

### TWINS TAKE LONG TRIP

June and George Hunt, two-year-old Lancashire twins, sailed recently on a six-thousand-mile trip from Liverpool to Britannia, British Columbia, on board the Canadian Pacific liner "Duchess of Atholl." George looks as though quite capable of defending sister June and faces the world with the air of one ready for all hazards. However, Canadian Pacific officials, both on the ship and the railway, smoothed the way for the tots and their trip was one long playtime to the two of them.

## Milling Qualities Excellent

Millers in Britain Are Enthusiastic Over Garnet Wheat

Ottawa, Ont.—Considerable enthusiasm was expressed among millers of Great Britain and on the continent who investigated Garnet wheat as to its milling qualities. A report by L. H. Newman, Dominion cerealist, on the result of the investigations of specially bagged shipment of this blend of wheat overseas has been made public. For a time at least Garnet should be shipped as a separate variety, instead of mixed with Manitobas. This would give the millers an opportunity of knowing the variety they were dealing with and they could treat it to the best advantage.

The Federal Department of Agriculture decided to submit Garnet to test by millers in the United Kingdom, and in different European countries. A year ago 6,700 bushels were shipped overseas to men expert in milling to obtain their opinions as to its suitability. These men were asked a series of questions, and Mr. Newman's report includes the replies they made.

## Would Halt Immigration

President Beatty Of C.P.R. Would Put Check On Entries From U.S. and Europe

Toronto, Ont.—Immigration from the United States and Europe should be stopped for the time being at least, said E. W. Beatty, K.C., president of the Canadian Pacific Railway, in an interview here. Mr. Beatty would not include on the ban, however, "those British immigrants who bring their own capital, and can proceed under their own steam."

"Unemployment is bad in the building trades, I think, because the usual projects of big buildings are holding back until the worst situation clears up. But if we have a normal crop this year and it moves out in a normal way, which it should, unless there is a permanent resistance in Europe, which I doubt, the situation in Canada should clear up," said Mr. Beatty.

## Proposed Power Line

Plan To Produce Power For Saskatchewan Being Considered

Prince Albert.—A proposal by interests of eastern Canada and the United States for expenditures of \$4,500,000 on construction of a power project at what is known as "The Horseshoe Bend" on the Saskatchewan River, is under consideration of the Saskatchewan government.

The site for the proposed harnessing of the river, which would produce power for distribution throughout the province, is 35 miles east of Prince Albert.

It was said here that the Fraser Brace Engineering Company of Montreal and Rollins and Sons, Boston, are backing the scheme. It is considered development of northern Saskatchewan's pulpwood resources would follow completion of the project.

## U. S. SENATOR SAYS TRADE WITH CANADA IS KILLED

Washington.—Senator George of Georgia, in a statement issued recently through the Democratic National Committee, assailed the administration for "strangling" Canadian trade with the greediest tariff bill ever enacted. The tariff, he said, "has squeezed more than a protesting squawk out of our northern neighbor and best customer."

"Unwittingly or not it has made the Smoot-Hawley-Grundy tariff an important issue in the forthcoming general election in Canada, to which country, in 1929, we exported \$948,000,000 worth of commodities, and from which we imported the same year shipments to the sum of \$502,000,000—a trade balance of \$446,000,000 in our favor."

"Obviously the loss of the serious curtailment of our trade with the Dominion of Canada is no trifling incident. On the contrary, it presents proportions which, in time, may assume aspects that will have to be treated as an economic calamity."

"Figures compiled in the department of commerce confirm the fact that when the president approved the Smoot-Hawley-Grundy tariff act he killed the proverbial goose that lays the golden eggs with one stroke of his pen."

"It is to be regretted that efforts to promote friendly relations with our neighbors are not supported by liberal trade policies."

## B. N. A. BILL HAS RECEIVED ROYAL ASSENT

London, England.—The British North America bill has received Royal assent and became law. It has passed both Houses of Parliament in the extraordinarily short period of 15 days, notwithstanding the fact that the session has been unusually busy.

The bill amends the British North America Act to give effect to the arrangements concluded between the Canadian Federal Government and the governments of Manitoba, Saskatchewan and Alberta for the return of natural resources to the three provinces. The turning over of certain Crown lands to the jurisdiction of the province of British Columbia is also involved.

The province of Manitoba celebrates its 60th anniversary as a province-member of the Dominion of Canada, on July 15. It was in order that the bill might become law before this event, that its progress through Westminster was so swiftly expedited.

## Claim Of Rancher

Earl Is Confirmed

Earldom Of Egmont Belongs To Alberta Man Says Judge

London, England.—Mr. Justice Eve in Chancery Division of the supreme court confirmed the claim of Frederick Trevelyan Percival, former Alberta rancher, to the title and estates of the Earldom of Egmont.

His Lordship confirmed the decision made four weeks ago by the Master of the Chancery, P. W. Vandler, who found the claims of Robert Poinel, retired official, and James William Percival, baker, should be dismissed.

Mr. Justice Eve granted a declaration that the "rancher earl" was entitled to the moiety in the hands of the trustees, subject to trusts of settlements, and that the trustees should make a vesting charge in favor of Percival.

## For Poultry Congress

Exhibits From Brandon District Now On The Way To Big Show

Brandon.—An exhibit of live poultry from the Brandon district is now on its way to the World's Poultry Congress, being held in London, England, this month.

Thirteen of the 50 birds going from Manitoba were contributed by exhibitors in the district. Mrs. J. Woods sent three Black Orpingtons; Jas. Clarke, three Black Wyandottes; John Windsor, pair of White Chinese geese; the provincial exhibition park, a pair of Canada wild turkey; Roger Morris, a Bresse, Rock cock; Mrs. John Munby, a white turkey tom, and Mrs. A. M. MacPherson, a white turkey hen. There are to be about 1,000 birds from all Canada at the show in London.

## To Make Long Trip

Government Aviators Have Left On Extended Flight To North

Lac Du Bonnet, Man.—Two Canadian government aviators, equipped for a three-month cruise, hopped off on a trip which will eventually take them to Akivik, at the delta of the Mackenzie River on Canada's north-west shore. Under command of Flight Lieutenant F. J. Mowdesley, the party plans to go north by Stony Rapids, Sask., and along the Mackenzie. The return will be by Great Bear Lake and Coppermine River, Baker Lake, Chesterfield Inlet and Churchill, at the terminals of the Hudson bay Railway.

### Vancouver Grain Exports

Vancouver, B.C.—There is now no hope that the export grain total from Vancouver will reach 50,000,000 bushels for the current year 1929-30. The total exported to date is 46,837,287 bushels according to the regular report of the Vancouver Harbor Board. The export at this time a year ago was 93,834,934 bushels.

### For Poultry Show

Ottawa, Ont.—Representative of the aristocracy of the Canadian poultry world, 800 birds are assembled in Ottawa awaiting shipment to the World Poultry Congress, which takes place in London, England, towards the end of the month. They have been sent from every province of the Dominion.

The initial order for silverware for the new Windsor-Astoria Hotel, in New York, calls for 100,000 pieces.

## A New Horizon

A NEW horizon opens out before the man with money. With \$1,000 saved you can look to the future with confidence—start one of these easy savings plans now:—

## Local and General Items

Mrs. Susannah Evans, of Calgary, is visiting with friends in Blairmore.

The Pincher Creek fair and stampede will be held on August 12th and 13th.

Mrs. Clarence Reddick, of Trail, arrived here last week on a visit with her parents.

The big Elks' carnival opened at Macleod yesterday and will conclude Saturday night.

One hundred and two in the sun and ninety in the shade was registered Sunday and Monday. Whew!

Dr. J. Melvin and family, of Lethbridge, who are holidaying at Jasper, are staying in the Conway residence.

Mr. and Mrs. R. Jamieson are rejoicing over the advent this morning of a baby daughter. Congratulations!

EYES EXAMINED at Blairmore Pharmacy, Saturday, July 19. E. J. Anderson, B.Sc., will be in attendance.

The famous colored House of David ball team will play a picked team in a two-game series at Fernie on Sunday next.

Miss Ethel Wilson, formerly of the Pincher Creek high school, has been engaged as public school teacher at Coleman.

A woman who appeared as a witness in court, was told by the judge to talk as if she was at home. The case is still going on.

Mr. and Mrs. George White and two children, of Medicine Hat, are spending the week here with Mr. and Mrs. S. G. Bannan.

Ralph Perry says that the next time a big ball game is staged at Montreal, he will walk there to see it. That's fancying, alright!

A woman was arrested in Calgary recently for resisting a police officer in the discharge of his duty. She refused to allow him to kiss her.

A. L. Smith, K.C., of Calgary, will address meetings in this district the early part of next week in the interest of the Conservative cause.

Happened in dry U.S.A.: Fifteen gunmen raided a government warehouse in Chicago and got away with nearly a quarter million dollars' worth of liquor.

Emil Blas, son of Mr. and Mrs. E. Blas, who has been attending the provincial school of technology and art at Calgary, has been awarded a diploma in electricity.

Mr. and Mrs. Allan Hamilton, with their son and daughter, Bobbie and Bessie, arrived from Drumheller last week end on a holiday visit with friends and relatives here.

E. J. Garland, M.P., Bow Valley, will speak on July 23rd from 8:30 to 9:30 p.m. His address will be broadcast over a provincial hookup from Edmonton, Calgary and Lethbridge.

Robert Gardiner, M.P., leader of the Dominion Progressive party, is ill at Coronation. He was recently elected in the Acadia constituency by acclamation, being the only unopposed nomination in seventy constituencies across Canada.

Since the advent of the talking-movies, efforts have been continuing toward their perfection, and even yet there are obstacles to overcome which are baffling the inventors. One of the most recent attachments, however, has but recently been tried out at the Cole theatre at Bellevue, and judging from the result a decided improvement is promised both in sound and time effect. Quite a number of patrons of the Cole theatre have expressed themselves as highly pleased with the results so far attained, which are equally as good as can be obtained in any of the larger theatres.

Wise fish begin business on a small scale.

A field of rye near Lee Lake stands slightly over six feet in height.

Hon. Dr. Manion's address will be broadcast from Calgary tomorrow night.

Owing to Wednesday next being pay-day, local stores will keep open till 5:30 p.m.

Mrs. F. Thael and two children are holiday guests here with the Knapman family.

Mr. and Mrs. Thomas Longworth have left Calgary on a three-month holiday trip to Europe.

Mark Levang's stopped off here this week, returning from a brief holiday trip to Pacific coast points.

People who earn their money in our town and spend it in another should move to the other town.

R. Laslett is staging a big midsummer clearance sale at his Coleman store, commencing on Wednesday next.

John, eighteen-year-old son of Mr. and Mrs. James Crist, of High River, was drowned in the Highwood river on Monday evening while swimming.

FOR SALE—Young Chinchilla Rabbits, pedigree from registered stock, 2 and 5 months old. Apply to R. Steurbaut, Box 50, Coleman (south of McGillivray Tipples).

Mrs. Evan Morgan left the early part of the week on a two-week holiday trip by motor to Vancouver and intermediate points, accompanied by her two sons and daughter.

The financial situation among Chicago's 18,000 public school teachers is once more acute. It is vacation time and pay cheques are three or four weeks overdue. To date, the back pay amounts to \$6,500,000.

Mr. W. Howe, senior, is in Calgary consulting specialists and incidentally visiting with his daughter, Mrs. J. B. Harmer, who returned to Calgary last week by motor after a brief visit with relatives here, accompanied by her husband and children.

The initiatory degree was conferred on a class of candidates at the regular meeting of the Blairmore Lodge of Elks last night. Visitors were present from Three Hills, Kamloops, Fernie, Pincher Creek, San Francisco, Boise (Idaho), and other points. During the social hour which followed the meeting, many of the visitors gave addresses.

Had it not been for the efforts of Pete McPherson, of Blairmore, a youth who had been bathing in Lee Lake on Monday evening would have been drowned. The young lad had gone out beyond his depth and becoming excited, had gone down twice, when McPherson plunged in in the bare nick of time and brought him to the surface.

Mr. and Mrs. George Wilson arrived in Coleman on Tuesday of this week from Fort William, to attend the marriage of Mrs. Wilson's son, Mr. Sydney White, to Miss Agnes O'Dell, the happy event to take place at 5:30 tomorrow evening. Mr. White is a member of the High River teaching staff and the young couple will make their home in that town.

A record house greeted Hon. Dr. R. J. Manion at the opera house here last night. Dr. Manion is one of the most fluent and forceful speakers ever heard here. He was attended on the platform by a number of leading Conservatives of the district, including our old friend and political war-horse, John Heron, of Pincher Creek. John Kerr, of Passburg, acted as chairman. Following the meeting here, Dr. Manion addressed a meeting at Coleman and left for Lethbridge by motor this morning.

## People are of Two Sorts

—Peace-makers, trouble-makers

So are foods. Some irritate and inflame the digestive tract. Others bring peace, harmony, contentment.

MOTHER'S BREAD

is the great tranquilizer. It soothes and nourishes. Why? Because it is nature's complete ration, representing all food and no waste. Build your meals upon it.
